

Services for Families and Children

Our certified Family Support Specialists are your guides to:

Increase your knowledge of child development and growth, specific to your child's disability

Incorporate effective teaching strategies into everyday routines

Reduce the negative effects of stress on your family and your child

Understand your rights and opportunities to advocate for your child

Shape your child's social skills and behaviors

Increase awareness of community resources

Prepare for successful transitions

STEP uses a supportive coaching strategy to help you identify and achieve your goals for your child and family. Our services are designed to maximize opportunities for progress as your child grows, learns and expands their understanding of the world around them.
